About

Edgar Perez is one of the world's few business and technology experts who can light up a room with insightful and educational presentations on subjects that range from artificial intelligence and deep learning to quantum and neuromorphic computing and from cybersecurity to the latest on investing.

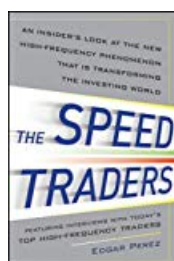

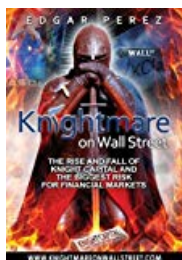

A former vice president at Citigroup, senior consultant at IBM, and a strategy consultant at McKinsey & Co. in New York City, he is a published author, keynote business speaker, consultant for billion-dollar private equity and hedge funds, and possesses subject matter expertise in **quantum computing**, **artificial intelligence** and **deep learning**, **cyber security** and **financial regulation**.

Edgar is author of *The AI Breakthrough, How Artificial Intelligence is Advancing Deep Learning and Revolutionising Your World*, *Nightmare on Wall Street*, *The Rise and Fall of Knight Capital and the Biggest Risk for Financial Markets*, and *The Speed Traders, An Insider's Look at the New High-Frequency Trading Phenomenon That is Transforming the Investing World* and *Investasi Super Kilat*.

Edgar has an undergraduate degree in Systems Engineering from Universidad Nacional de Ingeniería, Lima, Peru (1994), a Master of Administration from Universidad ESAN, Lima, Peru (1997) and a Master of Business Administration from Columbia Business School, New York, with a dual major in Finance and Management (2002).

He belongs to the Beta Gamma Sigma honour society and is an accomplished salsa and hustle dancer. He resides in the New York City area.
