Your professionalism and knowledge was apparent in both our interactions regarding logistics as well as during your talk. Identity Theft Jujitsu was indeed the perfect fit for the opening of our conference thanks to its blend of applicability to our subject matter, your eloquent delivery and inclusion of physical movement. Our participants were engaged and motivated to take lessons learned and apply them both in their personal lives as well as to their work. I would indeed recommend this presentation to others in my field.

Timely! Who thought this incredibly hot topic could also be so much fun? Our attendees raved about John Sileo's humorously interactive training style and how he applied it to such vital skills as fraud deflection, laptop protection, and safe social networking. Inspiring! We hired John because of his arresting personal story of surviving severe identity theft and data breach; we'd bring him back for his depth of knowledge, refreshing insights and engaging performance style.
